Medal of Honor Warfighter Full Game Free Version APK Android Mobile Setup Download Description of the gameMedal of Honor Warfighter Everything went to the fact that the game Medal of Honor: Warfighter had to wipe the nose of the gloriously famous, and already at that time many bored Call Of Duty. It would seem that the Danger Close development team, which revived the entire Medal for Valor franchise, got their hands on a quite powerful game engine. Frostbite 2, and, in theory, the studio was simply obliged to create an AAA-quality title that would give goosebumps. But, alas and ah, it is difficult to hide the truth, the game turned out to be slightly better than the product of an average hand. Medal of Honor Warfighter Full Game Free Version APK Android Mobile Setup Download Well, let's not talk about the sad, because there is still something good in the Medal of Honor Warfighter. Perhaps, it is worth starting with the fact that the series received a completely new plot, and some missions are completely based on real events, for example, the mission to free the ship from Somali pirates. In the final part of the franchise (after the release of this game, the series was finally and irrevocably abolished), many beloved protagonists kindly migrated from the part before last. We are talking about such fighters as Voodoo, Preacher, Mother and even Dusty. The latter was so generally distinguished by the fact that, despite the loss of his leg, he continued to serve, albeit as a consultant to the group. The lion's share of the gameplay you and I have to fight in the shoes of the already mentioned Preacher, who at night dreams of retiring as soon as possible and not letting his marriage sink into oblivion, but in the morning he puts on kilograms of equipment, takes up arms, and is sent to turn the bodies of Muslim terrorists into sieves. The plot of the game takes 4-5 hours. During this time, you will visit Yemen, Dubai, Somalia, Pakistan and even Sarajevo. There is no need to wait for revelation from the tasks: you will either ruthlessly destroy the enemy, or save the hostages - there is no third way. Running directly beneath the National Command Authority, a comparatively Unknown thing of handpicked warriors are chosen when it's critical that a mission shouldn't neglect. They're the Tier 1 Operators. There are over two million active soldiers. Of those, roughly 50 million fall under the immediate charge of the Special Operations Command. The Tier 1 Operator works on a level above and beyond even the most highly trained Special Operations Forces. Their precise amounts, while categorized, put in the low volumes. They're living, breathing, and precision tools of warfare. They're specialists in the use of violence. The brand new Medal of Honor™ is motivated by and developed using real Tier 1 Operators from the elite community. Players step into the boots of those warriors and employ their distinctive skill sets to battle a new enemy in the most unforgiving and hostile states of present day Afghanistan.
